Subject: Public demonstration **Date:** 09/21/2011 11:10 AM

Tina:

Almost done with the Public Demonstration. I was able to get up to date LMI data (yes, we our using our own definition of LMI which is close to HUD's definition). Waiting for EPA canned language.

Only Lolo and Helena below 2% MHI, and of course Missoula. Corrected population numbers for Havre and Kalispell putting them above 2% MHI.
